English will be represented in all.</i></p>		

Non-Integrated Learning: Physical Education Health Learning Languages

(This may also be connected to, or be provided a context within, the Integrated Learning Programme)

And opportunities for non-integrated teaching and learning to deepen understanding in...

The Allen Centre - Learning, innovation, creativity and challenge.

A programme of extension, challenge and engagement, providing opportunities for children to experience things outside their personal square. We acknowledge and celebrate those who experience, dream and think about the world in different ways. Our aim is to light the spark of imagination and possibility in children, as well as to feed their passion.

Learning Team plans, classroom programmes, and guidance from the Outram School Curriculum Statements, will ensure balanced coverage of Learning Areas, Strands and Achievement Objectives of the New Zealand Curriculum, at the appropriate curriculum level (Level 1-4), over a two year learning cycle.
